NEEDLE & ROSENBERG,

Dear Mr. Gay,

I am writing in response to our phone conversation yesterday regarding the N.I.H.'s interest in the patent application #07/958,009, "Long Term Proliferation of Primordial Germ Cells". The N.I.H. has abandoned the prosecution of this application.

If you need further information on this matter, or if you wish information on N.I.H. technologies available for licensing, please don't hesitate to call me at (301) 4967735.

Yours truly,
